

No L.102.LG.5.Safety/Accident/31

Sr. DEE (TRO) BB, BSL, NGP

Sr. DME(Op)PA

DME (O&C) SUR

CEE (Op) Instruction No. 10/2025

Sub: Drive to check the working of crew of other Railways over Central Railway.

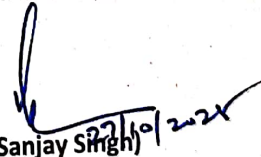

A 15 days drive should be launched to check the working of other Railway crew coming to Central Railway. During the drive, following items should be checked.

1. Whether they have LRD of the section?
2. Whether the crew is calling out signal loudly with gesture?
3. Whether BFT/BPT was done by the crew?
4. Whether they are aware of CEE/Op/CR Instructions no. 8/2025 issued to ALPs for application of RS Valve?
5. Whether the crew control the train at yellow signal and while approaching red signal at prescribed speed?
6. Whether the ALP is keeping hand on RS Valve after passing yellow signal?
7. Whether they are carrying Fog Safe Device?
8. When did their nominated CLIs last Footplate with them upto the destination?
9. Whether the Signal Location Book issued to them includes the section of CR, they are working on?
10. Whether the LP & ALP are keeping signal location book in open condition on driving desk?
11. Whether they are highlighting the speeds in caution order?
12. Whether they have taking proper rest in HQ/Running Room and are looking refreshed?
13. Whether they are due for Automatic competency?
14. Whether they are well conversant with working on automatic signaling and about unified SR 9.12?
15. Whether they are wearing glasses and are having spare glasses with them?
16. Whether they are carrying the detonators?
17. Whether they are aware about the speed of NMG rakes on turnouts?
18. Whether they started packing bag before stopping at the relieving point?

A check list for the same is enclosed herewith, which should be issued to the CLIs to be ticked/filled and submitted to Lobby on return.

The deficiencies found during the drive should be summarized and reported in the format enclosed at the end of the drive.

DA: As above
